

Atlas of the Future and Ara present:

# Fixing the future

Adventures in a better tomorrow

Tuesday 13 March 2018, 12-7pm, CCCB

## Barcelona edition: programme

A day of surprise and inspiration with the changemakers reshaping our world

**Mark Stevenson:** The futurist and author of two bestselling books tells stories of people doing things differently to meet humanity's challenges in innovative and surprising ways

**Kate Raworth:** The renegade economist and author of Financial Times and Forbes book of the year 'Doughnut Economics' proposes a new 21st century economy fit for our future

**Jessi Baker:** One of Business Insider's 'coolest female startup founders', Jessi founded Provenance to make supply chains transparent and trustworthy via the blockchain

**Gaia Vince:** The author and science broadcaster for the BBC, Channel 4 and The Guardian was inspired by the solutions she saw to our environmental challenges during her 900-day journey around our human-made world

**Marco Antonio Attisani:** The founder of Watly, a startup solving the future of water, electricity and connectivity with 'the world's largest solar powered supercomputer'

**Agamemnon Otero MBE:** 'Renewable dynamo' and CEO of Repowering gives power to the people by helping thousands tackle fuel poverty and take control of their community's energy futures

**Areti Markopoulou:** Architect and academic director of IAAC Barcelona, her revolutionary work on urban technologies has been exhibited around the world

**Ed Gillespie:** Charismatic advisor to the Mayor of London, the sustainability guru helps entrepreneurs convert the climate change challenge into business for good

**Richard Ballard:** Growing Underground, Richard's groundbreaking hydroponic urban farm and winner of the BBC Future Food Award 2017, shows how 'zero km' is possible – in London's disused bomb shelters and beyond

**Tony Lovell:** The cattle-rancher and business advisor has raised \$100m to recover millions of hectares of devastated Australian grasslands and tackle the effects of climate change using regenerative grazing techniques

**10.30** Doors open/registration  
**11.00** **After the end of the world** exhibition opens  
**12.00** **Fixing the future** conference starts

**12.00** **Fix it! You can shape the future we need**
